[Blue Ivories Out Now On Trailblazer](#)

Bridie King launches what could well be her best album to date with a very special night at Notes in Newtown on Friday 2 March. The night will feature Bridie and most of the personnel from her brand new album *BLUE IVORIES* playing a wonderful selection of tunes from artists such as Professor Longhair, Young-Holt Unlimited, Henry Butler and Don Raye as well some of Bridie's brand new originals.

The album has a highly engaging stripped back acoustic sound and you are in for a real treat when you hear it played live. *Blue Ivories* reflects not only Bridie's years of honing her keyboard skills in bands like The Ratbags Of Rhythm, The Hippos and the Boogie Kings but decades of both listening to and studying the greats of the musical genres she so admires.

The party does not stop there and after a set with her trio Bridie will be joined by Sydney's iconic blues outfit The Foreday Riders for two very special sets. The combination has proved most successful in the past and Friday's show will be no exception.
